Dialogue

User: I'm planning a trip to Paris and I've found two images online. This one is of the Eiffel Tower (IMAGE#EIFFEL2025), and this one is of the Louvre Museum (IMAGE#LOUVRE2025). Which one do you think has a more iconic design?

MLLM assistant: Both are iconic in their own right, but the Eiffel Tower (IMAGE#EIFFEL2025) is often considered more iconic due to its unique structure and global recognition.

User: That's interesting. Can you find me some images of nearby hotels with great views of the Eiffel Tower?

MLLM retrieving...

MLLM assistant: Absolutely. Here are a couple of options: IMAGE#HOTEL01 has a stunning view of the Eiffel Tower from its rooms, and IMAGE#HOTEL02 offers a panoramic view of the tower, especially beautiful at night. Both hotels are highly rated for their locations and amenities.
